ASSEMBLY INSTRUCTIONS

PARTS DETAIL

- Resin Parts

CAUTION

- Read carefully and fully understand all instructions before assembly.
- Extra care should be taken when using tools avoid personal injury.
- When using paint and cement (not included) read and follow their instructions.
- Assemble the kit away from the reach of children.
- Keep all parts and vinyl bags away from children.

IMPORTANT INFORMATION

- The kit is made by 3D print resins.
- Don't use Resin Wash.
- Thin resin parts are easy to deform. Carefully adjust with a hair dryer or hot water at 60°C or higher. Don't boil resin parts.
- Don't immerse in water, hot water, or solvents for a long time. Absorbs water and solvents.
- After washing with water, dry completely.
- Smooth the parts by sand papers and nippers.
- Various type of putty are available.
- Use epoxy or CA glue only.
- Please try temporarily assembly the kit before applying any adhesives.
- Recommend to apply primer surfacer before painting.

A140/2026

1 Tire Preparation

⚠
First, separate the support structure above the base plate and only cut it off the part itself later to avoid breakouts. Then sand it smooth as needed.

2 Assembly

Assemble the parts in the order shown.

⚠
Ensure the tires are positioned correctly for the respective side of the car. Refer to the markings on the tire supports.

LF = Left Front
RF = Right Front
LR = Left Rear
RR = Right Rear

3 Decals

⚠
The decals are not pre-cutted.

Cut out the tire markings along the indicated cut lines and then apply them to the respective tire type.

⚠
Don't rub the decals to much, it's easy to scratch.
If you use any decal softer or setter, practice at a not needed decal piece.

Explanation of symbols:

Use a file or sandpaper

Drill

Glue

Use a knife or scalpel

Don't use a knife or side cutter

Use a scissors

Use a side cutter

Screw
